Comprehensive Guide to okex api limit

A key technical signal to watch is the 200-day exponential moving average (EMAs), which BTC has held for nearly six months. In the previous cycle, it maintained this trend from October 2024 to March 2024 before briefly losing it during consolidation. This time, the trendline has held from April to October 2025, with the price possibly losing the trendline in the coming days.

Large banks have shown they'll restrict access for political reasons, targeting industries & individuals they disagree with, including gun manufacturers, digital assets, churches, & even @POTUS.

How the campaign works

Meanwhile, a new variant of XCSSET has emerged that can take screenshots, record what a user is doing, and steal data from their Telegram account.

Woo's point is that crypto markets don't exist in isolation and are affected by these broader economic cycles, particularly through their impact on liquidity.
