“These protections have already proven to be successful in addressing other types of non-consensual imagery, and we've now built the same capabilities for fake explicit images as well,” Google said. “These efforts are designed to give people added peace of mind, especially if they’re concerned about similar content about them popping up in the future.”

Despite industry calls over Paradigm's growing influence on Ethereum, Lubin saw Paradigm's new hires as another signal for the blockchain industry's growing mainstream adoption.

North Korean hackers have adopted a method of deploying malware designed to steal crypto and sensitive information by embedding malicious code into smart contracts on public blockchain networks, according to Google's Threat Intelligence Group.

DeepSearch helps you go from a noisy tweet storm to a consolidated set of primary documents: white papers, token contracts and press releases.

Grok 4 combines a real-time feed of X conversations with web DeepSearch and a higher-reasoning "Grok Think." That means you can surface sudden narrative spikes on X, ask the model to search broader web sources for context and request a reasoned assessment rather than a one-line summary. XAI's product notes and recent coverage confirm that DeepSearch and expanded reasoning are core selling points.
