Executives at crypto companies that violate the UK's advertising laws could face two years behind bars and other legal sanctions.

The character, developed by comedian and technologist Eline Van der Velden—who spun off Xicoia from her production company Particle6—was unveiled last week at the Zurich Summit during the Zurich Film Festival in Switzerland, and immediately drew online attention. Van der Velden said multiple talent agents are already interested in signing the artificial personality.

The cumulative total net inflow in spot Bitcoin ETFs now stands at \$61.50 billion, with total net assets slipping to \$149.66 billion, or about 6.76% of Bitcoin's market capitalization.

Over the past 12 years, September has been a down month for Bitcoin eight times. But the past three years, the crimson shifted to August, and September was green.

Authority is the emergent product of differing capacities for violence among individuals and groups. This gradient of violence gives rise to coercion, where the possessors of violence impose rules on subjects. And code, while dictating internal rules within its own logic, has no monopoly on violence in the world writ large.

The shift shows that while investors expect the market to remain contained, they are hedging against the risk of a sudden drop.
