SearchGPT is the latest development in what appears to be a new era in web search, which The Verge's Nilay Patel has termed "Google Zero." This approach prioritizes practicality over variety: instead of presenting a list with different sources and approaches to a specific query, which encourages users to do their own research, AI-powered search engines opt for a more direct tactic, providing concise, summarized information responding exactly to what users are looking for.

However—and this is crucial—ADX measures strength, not sustainability. A strong reading can persist right until the moment a trend exhausts and reverses, some random whale dumps the coin, or a FUD episode triggers a flash crash. It's like a speedometer showing you're going fast without telling you how much fuel remains.

A bull trap occurs when the price breaks above resistance, drawing buyers in before reversing lower, leaving late longs caught in losing positions.

BlackRock has launched its first Bitcoin exchange-traded product for UK retail investors, opening institutional-grade crypto access to Britain's retail market amid volatile trading conditions.

Miller attributes this to the Australian “larrikin spirit” at work: a cultural disposition toward irreverence and play, though one that some might read as proof of the market’s immaturity.

“We have seen crypto firms react positively to our financial promotions rules and regulations; however, where we still see poor practices, we will not hesitate to take action where firms appear to be breaching our rules.”
