Coinbase says the high compliance costs pose "formidable barriers to entry for smaller financial service providers, including fintech startups," and are often passed on to customers through higher banking fees and denial of financial services, particularly affecting low-income customers.

The licensing agreements arrive as prediction markets hit record-breaking growth, with weekly trading volume climbing past \$2 billion for the first time.

The milestone is expected to redefine the protocol's economic and technical architecture, introducing a modular "hub and spoke" design.

Crypto companies must be registered with the FCA under money laundering regulations and comply with the UK's financial promotions rules, which took effect in 2023, to advertise or provide services to residents.

Both platforms have capitalized on loosening federal oversight as Kalshi and Polymarket secured CFTC no-action letters this year, clearing them to operate without immediate federal enforcement risks.

The Relative Strength Index measures momentum on a 0-100 scale, with readings above 70 considered "overbought." At 76, BNB is at the edge of that danger zone. One or two more strong days push it above 80, where algorithmic systems typically trigger sell orders and profit-taking historically accelerates.
