Gold's rally appears to have stalled after hitting an all-time high of around \$4,380 per ounce on Friday, given it has dropped 2.90% ever since. Still, the precious metal was up by over 62.25% year-to-date.

For traders and builders alike, the real alpha will come from understanding how value migrates between these worlds. The Stripe Tempo news signals that the base layer is now strategic real estate. And in markets, whoever controls the rails eventually controls the margins.

The technique, called “EtherHiding,” emerged in 2023 and is typically used in conjunction with social engineering techniques, such as reaching out to victims with fake employment offers and high-profile interviews, directing users to malicious websites or links, according to Google.

The film uses the human angle to frame a debate that was prevalent at the time. When an attacker takes money from a smart contract, relying on the contract’s internal logic to obtain tokens outside of the creator’s intention, is that wrong? Should the attacker be censured, legally or otherwise, or is this simply fair play?

Making mining “unviable”

The announcement drew mixed reactions from the Ethereum community, with some sending messages of support and others seeing it as a loss of one of the Ethereum ecosystem’s most significant contributors during a year of significant change for the ecosystem.
