DOGE is up around 1.6% today and changing hands just shy of \$0.20. The meme coin has dropped by 25% in the last month and is now more than 72% off its 2021 all-time high of \$0.73.

Did you know? Crypto's "weekend effect" isn't just folklore. Studies show trading volume on weekends is 20%-25% lower than on weekdays.

According to Nansen, sender-only active addresses on the blockchain reached a record 3.46 million on Monday, surpassing its previous high of 3.44 million in December 2023.

Unlike previous rallies, this one is expected to be driven by long-term investors seeking portfolio stability, rather than short-term speculation.

“What that means is that when you remove a result from search under our policies, in addition, what we'll do is on any query that includes your name—or would be likely to surface that page from search—all explicit results will be filtered,” the spokesperson said. “So not all explicit results will be removed, but all explicit results will be filtered on those searches, which prevents them from appearing on searches where it would be likely to show up.”
