Grayscale has played a central role in the institutionalization of crypto. Founded in 2013, it has grown into one of the world's largest digital asset investment platforms, managing over \$35 billion in assets. It has now launched staking-enabled products that bring blockchain yield mechanics into Wall Street's traditional framework.

The recent bond sell-off, however, has widened the gap between short- and long-term yields, steepening the yield curve. In other words, investors are demanding higher returns to lend money for longer periods.
