Among the measures Grewal wants Treasury to consider is a regulatory exception under the Bank Secrecy Act for companies using AI and Application Programming Interfaces (API) driven monitoring tools.

GTreasury's corporate treasury management tools, alongside Ripple's suite of blockchain rails, allow the funds to be accessed 24/7 and sent with near-instant settlement in cross-border transactions. Brad Garlinghouse, CEO of Ripple, said:

Galaxy Digital reported strong third-quarter earnings, driven primarily by higher trading activity and continued expansion in asset management, signaling steady institutional interest in crypto-focused financial services.

As the first successful application of blockchain technology, cryptocurrencies have gone through more than ten years of development. From the initial Bitcoin to the current wide variety of tokens, the cryptocurrency market has experienced multiple booms and busts. Nevertheless, the ideas of decentralization and disintermediation represented by cryptocurrencies are profoundly influencing the traditional financial system. More and more institutional investors are beginning to pay attention to and participate in the cryptocurrency market, and governments of various countries are also actively exploring regulatory frameworks for cryptocurrencies to promote their healthy development.

Launched by Grayscale Investments, one of the largest digital asset managers, this staking-enabled exchange-traded product (ETP) signals a new phase in crypto's maturation and integration with traditional finance. It's more than a fund; it's a bridge providing traditional investors a regulated pathway to tap into the growth potential of crypto staking.

After the 2014 Mt. Gox hack, the first hack explored in "Code is Law," the DAO hack is probably the most famous in crypto's history. The DAO was the first decentralized autonomous organization, becoming an eponym in the process. In 2016, when Ethereum was still young, it was one of the first decentralized applications to gain traction.
