Comprehensive Guide to okx fair

Grayscale's introduction of staking-enabled funds marks a key milestone shaped by evolving oversight and growing market competition. The US Securities and Exchange Commission issued guidance for crypto ETPs in May 2025, clarifying that certain custodial staking activities may operate within existing securities laws when managed through regulated custodians and transparent structures. This development has eased earlier barriers that prevented ETFs from earning onchain rewards.

However, BTC continued to struggle near \$105,000, not benefiting from improved risk appetite after regional lenders delivered stronger-than-expected earnings, easing fears of a wider credit contagion.

Favorable setup for Bitcoin

In response to an X user's question, he also agreed that in the short term the chains from large financial giants could help mainstream adoption.

The union criticized the creation, saying that it “has no life experience to draw from, no emotion.”
