While the previously explained part of the system is trustless, some parts remain non-trustless. Per the white paper, Babylon's Bitcoin vault liquidations utilize whitelisted liquidators to monitor the price and vault state, resulting in a liquidation system that is not permissioned and introduces trust assumptions.

The companies said the acquisition will combine FalconX's trading and prime brokerage infrastructure with 21Shares' exchange-traded product platform spanning Europe and the United States. The Swiss issuer already manages over \$11 billion in assets across 55 listed crypto products, while FalconX has facilitated over \$2 trillion in trading volume for more than 2,000 institutional clients.

SpaceX's Bitcoin holdings have received increased attention as the aerospace company faces growing political and financial pressure.

Meanwhile, an X user under the handle Boluson argued that most corporations don't need a blockchain; they are just feeling pressured to adopt the technology over fears of being left behind.
