But here's where things get interesting: BNB has been riding a powerful parabolic support line since mid-year. The chart shows a clear parabolic advance—the kind that can deliver explosive gains but also tends to end with equally explosive corrections. Looking at the projection, if this trajectory continues uninterrupted, BNB could be trading near \$2,000 by December 31, potentially delivering another 67% gain from current levels over the next 89 days.

The space opens with a mural by British graffiti artist Mr Cenz at the club's entrance. Visitors can scan the mural with the W1 Curates smartphone app to reveal an augmented-reality animation. Inside, works include two sculptures by British graphic designer and album cover artist KidEight—known for collaborations

with Gucci Mane, Fabolous, 2 Chainz, and French Montana—and a six-foot green gummy bear by American street artist WhlsBe.

In 2024, officials sought to address the country's debt by raising money through taxes, including a 16% sales tax on bread and 25% tax on vegetable oil. As protests broke out, some groups urged citizens to begin using crypto as a way to bypass what they saw as unfair taxation.

While the \$20 million plan was designed as a short-term measure, the latest proposal seeks to make buybacks perpetual, embedding them directly into the DAO's governance and treasury management. The move would shift Aave from opportunistic market reactions toward a systematic, rule-based capital strategy, echoing corporate-style financial management.

"At this point, it's too early to tell whether the demand for HPC will meet lofty expectations," he wrote. "We remain focused on infrastructure that keeps bitcoin mining competitive, helping clients secure power-ready sites, interconnection, and long-duration energy, with the flexibility to repurpose assets for HPC if and when demand matures."
