Years before that in August 2021, DeVere Group CEO Nigel Green, "Ethereum's ascent to the top of the cryptoverse seems unstoppable."

However, the catastrophic losses of models like Gemini highlight the significant risks that make financial institutions wary. A primary concern is the "black box" nature of these systems, where the reasoning behind a trade is often opaque and unexplainable. This lack of transparency is a major hurdle for regulatory compliance and risk management, as establishing trust in a model's decisions is a critical and ongoing effort.

Putting gold on track for its largest two-day decline since 2013, the 8% drop has sparked panic among investors who had turned to the metal as a hedge against inflation and market volatility after its 60% surge earlier in 2022.
