Blockchain security is the foundation and guarantee for the development of blockchain technology. Due to the complexity of blockchain systems, their security issues involve multiple aspects such as cryptography, consensus mechanisms, and network security. Common security threats include 51% attacks, smart contract vulnerabilities, private key leakage, etc. To ensure the security of blockchain systems, measures need to be taken from multiple levels such as technology, management, and law. With the widespread application of blockchain technology, blockchain security will become increasingly important and will attract more professional talents to engage in it.

Big Tech firms have also been supportive: Microsoft accepts BTC directly or through processors, whereas Newegg also supports ETH for purchases on-site, and Overstock welcomes XRP as well. AMC Theatres accepts Bitcoin and other digital assets for its products and services, from Xbox content to movie tickets.
