Uniswap added support for the Solana network to its web app, allowing Solana users to link their wallet and trade Solana-based tokens alongside those from other networks.

Beyond stablecoins, a16z noted growing institutional participation across the crypto sector, citing the rise of spot exchange-traded funds (ETFs) and initiatives from major institutions, including Citigroup, Fidelity, JPMorgan and Morgan Stanley, to offer or expand crypto-related services.

This put the memecoin sector back to levels seen in July, erasing gains it recorded in the last three months.

"Singapore's regulatory emphasis centers on payments and the regulated use of tokenized payment instruments, whereas Hong Kong's development is more product-centric, focusing on governance, investor protection, and the regulatory treatment of crypto-enabled offerings within capital markets," Chu explained.

The introduction of Google's AI summaries has raised huge red flags for web publishers, however, as users are less likely to visit their sites if the information is extracted and provided up front. The issue is compounded by AI's tendency to hallucinate, and even provide dangerous answers based on flawed sources.

Flag and pennant patterns form after sharp price moves. Flags appear as small, parallel channels, while pennants look like compact triangles. Both signal brief pauses before the prevailing trend continues.
