Comprehensive Guide to pay using binance

While the \$20 million plan was designed as a short-term measure, the latest proposal seeks to make buybacks perpetual, embedding them directly into the DAO's governance and treasury management. The move would shift Aave from opportunistic market reactions toward a systematic, rule-based capital strategy, echoing corporate-style financial management.

Hash computations—or hashing—is the process of turning data into a fixed-length string of characters. It's needed to do things on the Bitcoin network, like creating private keys so users can make transactions.
