Comprehensive Guide to pendle binance

Grayscale's introduction of staking-enabled funds marks a key milestone shaped by evolving oversight and growing market competition. The US Securities and Exchange Commission issued guidance for crypto ETPs in May 2025, clarifying that certain custodial staking activities may operate within existing securities laws when managed through regulated custodians and transparent structures. This development has eased earlier barriers that prevented ETFs from earning onchain rewards.

This put the memecoin sector back to levels seen in July, erasing gains it recorded in the last three months.

In their Telegram group, members have also brainstormed ideas for future attacks. Proposed targets include the Boston Marathon, a Lady Gaga concert and Wimbledon.

Bear traps: Shakeouts below support

These include conspicuously posted warnings about speculative risk, which direct the user to informational pages and other prompts designed to alert the user and mandated know-your-customer requirements.

What really changes?
