While Elon Musk has recently touted Bitcoin for its energy-based, inflation-proof economic model, the billionaire's relationship with the cryptocurrency industry has been complicated.

The next crypto bear market could be particularly brutal and driven by a business cycle downturn that has never been seen in crypto before, according to analyst Willy Woo.

The company has since closed its Minnesota headquarters, suspended most of its global services, and begun winding down its operations.

“The \$9 million transfer that Arkham and others have cited was simply a transfer to another wallet under his control. He did not send those funds to an exchange (yet),” he said. But he cautioned that it’s possible that World Liberty has access to non-public information that explains the blacklisting.

Google’s experiment is verifiable, meaning that the same results can be obtained by running the experiment on any quantum computer system with the same technical specifications as the one the researchers used.

Bitcoin dropped below \$108,000 per coin in September as the biggest digital coin started "showing signs of exhaustion," according to Glassnode analysts, as long-term holders took profits and ETF flows slowed down.
