On Tuesday, a coalition of fintech and crypto industry trade groups wrote a letter to the US Consumer Financial Protection Bureau (CFPB) urging it to finalize an open banking rule that affirms individuals, not banks, own their financial data.

Railbird was founded in 2021, but only won regulatory approval from the CFTC as a designated contract market in June.

Blockchain security is the foundation and guarantee for the development of blockchain technology. Due to the complexity of blockchain systems, their security issues involve multiple aspects such as cryptography, consensus mechanisms, and network security. Common security threats include 51% attacks, smart

contract vulnerabilities, private key leakage, etc. To ensure the security of blockchain systems, measures need to be taken from multiple levels such as technology, management, and law. With the widespread application of blockchain technology, blockchain security will become increasingly important and will attract more professional talents to engage in it.
