Gamified onchain campaigns have become a popular way to kickstart this “flywheel,” guiding users through an ecosystem’s offerings while helping new projects attract a critical mass of participants.

The Bank Policy Institute and Kentucky Bankers Association filed a lawsuit the same day the rule was finalized, saying it mandates data sharing without proper oversight of third parties, increases fraud risk by allowing unsafe practices like screen scraping, and forces banks to provide free access to systems they've spent billions securing.

In other words, the slight price bump is not being driven by aggressive buying. Instead, the move coincides with more passive buying.

Hours after getting slapped, the Pump.fun streamers recorded an apology video... while thanking Martyn for pumping their bags.

They warned that if the shutdown continues, its impact could extend from liquidity to structural trust in the US system. "The market's next move may depend on whether the nation's political institutions can restore consensus amid deep division," they said.

While we abstract it away in our discussions, this final step, the violence, is the basic quantum of all regulation. And as long as governments have armies, and developers and hackers do not, those who believe code is law will be unable to enforce their priors on the rest of us.
