Tax advantage for big traders

retail investors are known for entering the market during periods of euphoria, typically after strong rallies or new all-time highs. Still, despite Bitcoin hitting multiple all-time highs in 2025, the general public's interest and retail activity continue to lag.

Bitcoin, which has long been criticized for volatility as one of the key arguments against being a legitimate store of value, has also slipped 5.2% from its intra-day high of \$114,000, though daily losses were about 0.8% at the time of writing, according to Coinbase data.
