Crypto has already been part of civil unrest and falling confidence in the economy in Kenya.

As crypto payments mature, many travel services and airlines, directly or via intermediaries, are offering bookings via BTC, ETH and sometimes XRP. When it comes to flights and hotel booking platforms, sites like Travala.com allow travelers to make bookings with BTC, ETH and many other supported digital assets.

While AI tools can help spot market trend shifts for day traders via social media and technical signals, traders still can't rely on them for autonomous trading.

However, the catastrophic losses of models like Gemini highlight the significant risks that make financial institutions wary. A primary concern is the "black box" nature of these systems, where the reasoning behind a trade is often opaque and unexplainable. This lack of transparency is a major hurdle for regulatory compliance and risk management, as establishing trust in a model's decisions is a critical and ongoing effort.

The National Bureau of Economic Research (NBER) tracks four main indicators to identify recessions: employment, personal income, industrial production and retail sales.
