As the first successful application of blockchain technology, cryptocurrencies have gone through more than ten years of development. From the initial Bitcoin to the current wide variety of tokens, the cryptocurrency market has experienced multiple booms and busts. Nevertheless, the ideas of decentralization and disintermediation represented by cryptocurrencies are profoundly influencing the traditional financial system. More and more institutional investors are beginning to pay attention to and participate in the cryptocurrency market, and governments of various countries are also actively exploring regulatory frameworks for cryptocurrencies to promote their healthy development.

China's rare earth mineral export controls prohibit the sale of the critical minerals to the US military industrial complex, which backs the value of the dollar through military force, Gromen told Marty Bent, founder of Truth For the Commoner (TFTC), on Sunday.

The chart below reveals that spot demand, measured by the Apparent Demand metric, has been declining at a 30-day rate of 111,000 BTC.

However, he emphasized that it is still a "working theory" and that he remains a Bitcoin bull.

BlackRock has launched its first Bitcoin exchange-traded product for UK retail investors, opening institutional-grade crypto access to Britain's retail market amid volatile trading conditions.
