Over the past 12 years, September has been a down month for Bitcoin eight times. But the past three years, the crimson shifted to August, and September was green.

Even convenience stores are in it. Sheetz accepts Bitcoin, Ether and a handful of other coins at checkout. And if you're more of an XRP loyalist, directories like Cryptwerk point you to smaller eateries happy to turn tokens into tacos or burgers.

They discussed how the incidents had made them "very happy" and that "this is what crypto should be about," while congratulating themselves for bringing attention to women's sports.

Details about how the firm will fund the initiative were not revealed, but it expects to make the first strategic purchase “in the near future.”

Chinese artificial intelligence models are outperforming their United States counterparts in cryptocurrency trading, according to data from blockchain analytics platform CoinGlass, as competition between leading generative AI chatbots intensifies.

How to read: Breakouts often follow the existing trend but can occasionally reverse it. Estimate the price target by measuring the base width of the triangle and projecting it from the breakout point. A breakout upward in an uptrend is typically bullish, while a breakdown in a downtrend is bearish. To avoid false signals, use a 1%-2% filter before confirming a move.
