The comments follow a white paper release from the company, revealing a Bitcoin trustless vault system that leverages Bitcoin smart contract verification BitVM3 to lock BTC in per-user vaults. Here, withdrawals are gated by proofs of external smart contract state verified on Bitcoin.

SearchGPT is the latest development in what appears to be a new era in web search, which The Verge's Nilay Patel has termed "Google Zero." This approach prioritizes practicality over variety: instead of presenting a list with different sources and approaches to a specific query, which encourages users to do their own research, AI-powered search engines opt for a more direct tactic, providing

concise, summarized information responding exactly to what users are looking for.

The second-largest crypto by market capitalization has seen perpetual open interest decline by 2% from \$24.6 billion to \$24.1 billion since September 1, according to Coinanlyze. Bitcoin's bullish outlook in the same period, however, is bullish, accompanied by growing open interest.

China produces over 90% of the world's rare earth minerals and rare earth magnets used in electronics manufacturing, according to Reuters. The announced export restrictions on rare earths won't just reshape supply chains, but the entire global monetary order, Gromen said.
