Three times leveraged funds are far rarer, with many observers of the space doubting that issuers would try to introduce more of these products, which can become a bad bet if the underlying asset veers in an unexpected direction. The prospectus itself warns repeatedly that the various funds proposed may not be right for all investors.

However, in response, “Wall Street created products that made the dollar dominant, and the market cap of equities today is 40 trillion compared to 2 trillion for gold,” he said.

retail investors are known for entering the market during periods of euphoria, typically after strong rallies or new all-time highs. Still, despite Bitcoin hitting multiple all-time highs in 2025, the general public's interest and retail activity continue to lag.

Ether's bear flag breakdown targets \$3,100

President Donald Trump's embrace of crypto, paired with his return to the White House, has fueled enormous profits for his family—north of \$1 billion to date, his son Eric Trump said.

ETH derivatives markets show no alarming signs — quite the opposite. Bulls' hesitation to take on leveraged positions appears healthy, particularly after the Oct. 10 extreme volatility. However, Ether's path toward \$4,500 will likely depend on clearer signals from credit conditions and US labor market data, meaning any recovery could take time.
