"If there were to be a material flight from the banking system, I would be taking action," Gould said, noting that "highly elected officials" and trade associations would also intervene.

"In practical terms, this means HIVE is scaling production of Bitcoin much like a growth business scales output of a core product," he wrote. "Each incremental exahash increases daily production and revenue potential, while our HPC division provides a complementary revenue stream that grows with demand for compute power. "

Crypto trades 24/7, with sharp moves as likely on a Sunday night as on a Tuesday morning. In such a continuous market, trying to "pick your moment" is mostly guesswork, which is why many investors prefer a rule that removes the need for perfect timing.
