Creditors will sell U.S. debt as they grow worried about its ability to function as a store of value, he said. That will likely put the Federal Reserve in a tough position, Dalio added, where it has to decide between rising interest rates and a debt default crisis or printing money to buy debt and “try to hold real interest rates down, which will lower the value of money.”

The UK tax authority has ramped up its scrutiny of crypto investors, doubling the number of warning letters sent to those suspected of underreporting or evading taxes on digital asset gains.
