Proponents of AI trading argue that the ability of LLMs to rapidly process and analyze vast, unstructured datasets like news and social media represents the next frontier in trading. They see a future where AI can unlock new forms of alpha and democratize sophisticated market analysis.

Triangle patterns form when price movements create converging trendlines, resulting in a triangular shape. The three main types are ascending (bullish), descending (bearish) and symmetrical (neutral).

Woo concluded that markets are speculative, meaning they price in future events, including M2 money supply. "Either BTC is saying to the global markets the top is in, or BTC is going to catch up," he said.

He called the rejection "a missed opportunity to explore how Indian listed companies can responsibly innovate" with Bitcoin in ways that add long-term shareholder value.
