The deal is expected to generate a total cumulative revenue of over \$3.5 billion for the world's largest Bitcoin mining firm, during the initial 12-year terms of the contracts, Cointelegraph reported.

Bitcoin has jumped by almost 4% during gold's correction period, recovering from its worst level in four months near \$103,535. Its RSI reading is also at its lowest since April, mirroring a bottom structure that preceded a rebound of 60% or more in the past.

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not

rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.
