And last month, only one in four of the 1,900 investors polled by Binance Australia estimated that Bitcoin will top \$150,000 in the next six months.

Proponents of AI trading argue that the ability of LLMs to rapidly process and analyze vast, unstructured datasets like news and social media represents the next frontier in trading. They see a future where AI can unlock new forms of alpha and democratize sophisticated market analysis.

They warned that if the shutdown continues, its impact could extend from liquidity to structural trust in the US system. "The market's next move may depend on

whether the nation's political institutions can restore consensus amid deep division," they said.
