"We have hashing technologies, where we have the ability technologically to detect CSAM proactively," the spokesperson said. "That's something that's sort of an industry-wide standard, and we're able to block it from appearing in search."

This article explores where BTC, ETH and XRP are used, from simple everyday purchases to large-scale airline integrations.

That includes analyst Pat, who predicted a "generational bottom" for Bitcoin, citing its performance relative to gold over the past four years.

Paradigm's Tempo blockchain is building a network with a curated set of validators, which will essentially be controlled by Stripe, marking a steep departure from Ethereum's decentralized, open-source ethos.

"It remains unclear how the Bitcoin came to be in U.S. custody," on-chain intelligence firm Elliptic recently concluded. "It's also unclear who 'stole' the bitcoins from Chen/LuBian or whether a theft really took place."

The campaign's gamified nature has also led to community engagement across social platforms, with participants sharing their progress, NFT achievements and referral milestones. This activity is generating continued interest in the campaign as it moves into its next phases.
