In response to an X user's question, he also agreed that in the short term the chains from large financial giants could help mainstream adoption.

Deutsche Bank's analysts also stressed that despite parabolically breaking new highs in dollar terms, gold only surpassed its real-adjusted all-time highs in early October.

Google's experiment is verifiable, meaning that the same results can be obtained by running the experiment on any quantum computer system with the same technical specifications as the one the researchers used.

Assets associated with the infamous Libra token—launched in February, and promoted by Argentine President Javier Milei—were unfrozen by a Manhattan federal judge on Tuesday. The judge said that she no longer believes that the defendants would run off with the cash, after the pair had been compliant with court proceedings. It comes after the same U.S. district judge, Jennifer L. Rochon, froze \$57.6 million worth of USDC found in June as part of a case in which the plaintiffs are seeking over

That said, Miller cautioned against making generalizations. "It's always a bit dangerous to try to extrapolate things like user intentions from the cold data of average wallet analysis," he said.

Palmer added that Hut 8's announcement "underlined a real path to monetization for its burgeoning power pipeline over the next few years."
