"The number of new packages that get published on a daily basis is posing a challenge for security organizations, and ML model-based detection is currently the best answer that the security industry can provide," ReversingLabs engineer Karlo Zanki said.

The relative strength index is still below the 50 mark, suggesting that market conditions still favor the downside.

A business cycle downturn is a period of economic contraction where GDP declines, unemployment rises, consumer spending falls, and business activity slows. It is also commonly referred to as a recession and typically follows periods of expansion.

With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.
