The data analytics platform also showed that in the last 30 days, BNB Chain's successful transactions reached 500 million, a 151% surge from the previous 30-day period. This puts the network second to Solana, which holds the top spot for transactions.

The central bank is currently engaged in quantitative tightening, with no clear reversal plans to switch to QE until it reaches its target inflation rate of 2%.

Strategy said earlier this year that it was adjusting its policy on common share issuance to convey discipline. The policy was modified to give the company

greater flexibility, but onlookers suggested that it could make Strategy's move less predictable moving forward.

In his Monday blog post, which drew on his Sept. 15 paper pushing the same idea, he argues that a communication system should be established where law enforcement agencies can directly query crypto firms for investigative purposes.

"Dankrad leaving Ethereum is a terrible look for open-source vs. corporate blockchains," Andy, co-host of The Rollup, a popular crypto-focused podcast, said. "Huge L for the entire community."

Top traders at Binance reduced their bullish bets (longs) from Tuesday to Thursday but later reversed course, increasing their exposure to ETH despite ongoing price weakness. In contrast, top traders at OKX attempted to time the market by adding exposure near the \$3,900 level but eventually exited as prices fell to \$3,700 on Friday.
