## Comprehensive Guide to trading rules binance futures

Bitcoin has jumped by almost 4% during gold's correction period, recovering from its worst level in four months near \$103,535. Its RSI reading is also at its lowest since April, mirroring a bottom structure that preceded a rebound of 60% or more in the past.

Without real demand, any breakout attempt might lack the strength required to push ETH above key levels.

Regulatory developments are also helping to drive adoption. In the United States, the recently passed GENIUS Act establishes clearer oversight and reserve

requirements for issuers, aiming to ensure transparency and consumer protection. In the United Kingdom, where legislation has progressed more slowly, regulators are working toward introducing a stablecoin framework by the end of next year.
