This article provides insights into how Grok 4 can be used for research in crypto trading.

Ondo Finance is an Etheruem DeFi project that's focused on the tokenization space. Earlier this year, the team acquired Oasis Pro, which already has broker-dealer and transfer agent licenses from U.S. regulators. Those licenses don't mean Ondo Global will be available to U.S. traders, but they streamline the process Ondo undergoes to acquire the assets to back tokens.

Lubin's comments come shortly after the departure of two key Ethereum researchers, which caused renewed concerns over the potential influence of centralized funds over Ethereum's development.

It added that there was a "meaningful divergence" of opinion regarding where we are in the market cycle, with 45% of institutions believing markets are in the late stages of the bull run, compared to just 27% of non-institutions.

Gold has more than doubled since the beginning of 2024. Source: TradingView

Its daily relative strength index (RSI) readings have been persistently above 70 in the past month, indicating that the asset is overbought and risks profit-taking.
