If a developer deploys an immutable contract, then the moment an exploit is discovered, without a legal superstructure to support participants, the entire system will become unusable. And it is unrealistic to expect developers to develop perfect code. It is far easier and more effective to implement flexible rules that can be administered by humans (i.e., laws) than it is to imagine, beforehand, every possible risk scenario that could ever arise.

"The updated guidance should further encourage the sharing of information relevant to potential illicit activities routed through blockchains, while being careful not to overimpose recordkeeping obligations on everyone involved in a blockchain transaction," Grewal added.

Without real demand, any breakout attempt might lack the strength required to push ETH above key levels.

VC participation remains necessary to bring the "progressive decentralization" needed to achieve a "secure global information infrastructure," explained Lubin.

"Bitcoin briefly tested record highs before retreating as traders took profits," Joe DiPasquale, CEO of crypto asset manager BitBull Capital, told Decrypt. "The broader setup remains bullish, with a prolonged government shutdown likely to continue driving interest in hard assets and supporting demand for Bitcoin as an alternative store of value."
