Sumit Roy, senior ETF analyst for ETF.com, told Decrypt that traders may not be finished unwinding their positions, although prices could also rally.

Cross-border payment is one of the important application scenarios of blockchain technology. The traditional cross-border payment process is complex, involving multiple intermediaries, with long settlement time and high fees. In contrast, cross-border payments based on blockchain technology can realize direct peer-to-peer transactions, greatly simplifying the process, shortening settlement time, and reducing costs. Currently, several countries and financial institutions have begun to try using blockchain technology for cross-border payments. With the

continuous maturity of technology and the improvement of regulatory frameworks, blockchain cross-border payments are expected to become the mainstream cross-border payment method in the future.

Meanwhile, OpenAI has also partnered with various publishers to enhance the content and accuracy of SearchGPT. These partnerships allow OpenAI to provide current information along with clear, in-line attribution and links to original sources. Notable partners include News Corp and The Associated Press.
