While AI tools can help spot market trend shifts for day traders via social media and technical signals, traders still can't rely on them for autonomous trading.

"We're testing SearchGPT, a prototype of new search features designed to combine the strength of our AI models with information from the web to give you fast and timely answers with clear and relevant sources," OpenAI said in an official blog post.

"We have seen that a number of companies have had success with a crypto strategy," the spokesperson said. "A number of our friends and supporters felt we should engage in that area as well. The board decided to start a conservative

approach on this and test waters by buying some Bitcoin and Trump coin."

World Liberty Financial is arguably the most prominent Trump-backed crypto venture, with Donald Trump and his three sons all listed as co-founders. So far, the project has only rolled out its USD1 stablecoin and sold its WLFI governance token; however, plans are in place to expand further into the world of decentralized finance and offer lending services.

That state of affairs could now change imminently. Waller's plan would allow U.S. institutions focused on "payments innovation"—aka, crypto and other emerging financial technologies—to gain their own access to the Fed's services, as opposed to depending on third-party, master account-holding banks.

As of mid-October, the ratio has once again dipped below -2.5 , signaling that BTC may be undervalued versus gold after the metal's record run to \$4,380. That may mark the beginning of Bitcoin's next bull phase.
