Comprehensive Guide to uphold vs binance us

“We have seen crypto firms react positively to our financial promotions rules and regulations; however, where we still see poor practices, we will not hesitate to take action where firms appear to be breaching our rules.”

And if a lot of that is being fueled by longtime HODLers converting their stacks into ETF shares, as Maartunn hypothesizes, it's pretty unusual.

In March 2025, the exchange began moving assets between its wallets, a likely step in preparing for further repayments ahead of the Halloween deadline.

“Fast forward a few years: Corporate chains will end up with the complex tech but without the added value for users, which is no central entity to control them. At that point, these chains will lose the focus from corporates.”

Markets run 24/7, and a growing share of volume comes from high-leverage perpetual futures. That means even small order imbalances can trigger sharp, short-lived moves.

With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.
