But the second problem with the code-is-law idea is more damning. While the model of regulation suggested here so far has been of a reactive system that arises to fill the need for authority, some political scientists — realists — view it the other way.

Top traders at Binance reduced their bullish bets (longs) from Tuesday to Thursday but later reversed course, increasing their exposure to ETH despite ongoing price weakness. In contrast, top traders at OKX attempted to time the market by adding exposure near the \$3,900 level but eventually exited as prices fell to \$3,700 on Friday.
