The companies said the acquisition will combine FalconX's trading and prime brokerage infrastructure with 21Shares' exchange-traded product platform spanning Europe and the United States. The Swiss issuer already manages over \$11 billion in assets across 55 listed crypto products, while FalconX has facilitated over \$2 trillion in trading volume for more than 2,000 institutional clients.

Hash computations—or hashing—is the process of turning data into a fixed-length string of characters. It's needed to do things on the Bitcoin network, like creating private keys so users can make transactions.

"Such a system would maintain or strengthen law enforcement capabilities while obviating the existing broad and costly financial surveillance regime," he said.
