The primary struggle for a crypto investor is not a lack of information but a relentless deluge of it. News websites, social media feeds and onchain data streams constantly churn with updates that can be overwhelming. XAI's Grok 4 aims to change that. It pulls live data straight from X, pairs it with real-time analysis and filters signals from noise. For a market that is heavily influenced by narrative momentum and community chatter, this is indeed a notable capability.

Speaking at the National Association for Business Economics conference, Powell said the Fed may soon stop its "quantitative tightening" process, noting that reserves are "somewhat above the level" consistent with ample liquidity.

The increased seven-day hash rate comes as miners wrestle with rising energy costs and lower rewards. After last year's halving, the payoff for miners is 3.125 bitcoin, down from 6.25 previously.
