The bill would impose an excise tax on electricity used by businesses engaged in digital-asset mining under proof-of-work authentication methods.

Catalyst windows can also distort price action. Listings and token unlocks may temporarily overwhelm shallow market depth, especially in illiquid altcoins. This can produce sharp “breaks” that often reverse once order flow normalizes.

Research on market microstructure around launches and unlocks shows how depth, fragmentation and positioning can combine to create these head fakes.

“This is a first step in bringing the spirit of Dogecoin directly into the fabric of the world’s game,” he added.
