Ultimately, Carrone's concerns center around the differing aims of decentralized and centralized entities, and the dangers of allowing any type of fund — not just Paradigm — to have too much sway over the Ethereum ecosystem.

Gamified onchain campaigns have become a popular way to kickstart this “flywheel,” guiding users through an ecosystem's offerings while helping new projects attract a critical mass of participants.

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not

rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.
