“Very soon better, fairer, more broadly accessible onchain investment platforms with healthy tokenomics will mature sufficiently so that VCs will have no choice but to set up shop on these platforms, if they want to stay in the game.”

This happened as the “fear” sentiment gripped markets, with nearly \$230 billion in value erased in a single day.

Butterfill said that Bitcoin's "correction, and the subsequent liquidity cascades seen a week ago," are still reverberating through the industry, prompting some crypto-natives to further liquidate, adding that crypto market sentiment was generally bearish.

“The conventional wisdom was that the SEC was only going to allow 2X leverage going forward, but these filings suggest that it may be willing to allow more volatile products to hit the market,” Roy wrote. “If they launch, these would be extremely risky funds designed for the most aggressive short-term traders.”
