A combination of favorable macroeconomic conditions and surging institutional interest in the digital asset has served Bitcoin well throughout the year, and several analysts recently told Decrypt they expect the appetite for BTC to continue to grow, despite signs of potential exhaustion in the crypto market earlier this week.

“These protections have already proven to be successful in addressing other types of non-consensual imagery, and we’ve now built the same capabilities for fake explicit images as well,” Google said. “These efforts are designed to give people added peace of mind, especially if they’re concerned about similar content about them popping up in the future.”

“I believe that the real world moment is now, and I want to make sure we do not miss this window to touch normal people’s lives everywhere in the world,” Feist said, arguing his decision to join Tempo will enable him to more effectively bring crypto payments to the masses.

However, this is not all bad news as DATs with strong capital bases and trading-savvy management teams “may still generate meaningful alpha,” they said.

Liquidity is typically thinnest during weekends and off-hours. Market makers widen spreads to manage risk, and a single headline can move prices beyond key levels before liquidity returns.

Bitcoin infrastructure company Babylon Labs claimed to have developed a system that enables native Bitcoin to be used as collateral for borrowing assets on Ethereum.
