next move or explore upcoming altcoin rallies, you'll gain practical skills to interpret price action. With a clear, step-by-step approach, it helps you build a solid foundation for crypto trading and avoid common mistakes.

"The updated guidance should further encourage the sharing of information relevant to potential illicit activities routed through blockchains, while being careful not to overimpose recordkeeping obligations on everyone involved in a blockchain transaction," Grewal added.

How to read: Breakouts often follow the existing trend but can occasionally reverse it. Estimate the price target by measuring the base width of the triangle and projecting it from the breakout point. A breakout upward in an uptrend is typically bullish, while a breakdown in a downtrend is bearish. To avoid false signals, use a 1%-2% filter before confirming a move.
