While Elon Musk has recently touted Bitcoin for its energy-based, inflation-proof economic model, the billionaire's relationship with the cryptocurrency industry has been complicated.

More advanced traders may be inclined to consider selling covered calls. Covered calls benefit from overbought, parabolic rallies—if the rally stalls, you keep the premium; if price indeed explodes, your gains are capped but protected from a sudden selloff.

The index combines three components to capture overall market psychology: the Fear & Greed Index (reflecting macro mood and volatility), CoinGecko's up/down

votes (reflecting retail sentiment) and a rolling normalization layer that aligns both in a one-year window.

A 2022 class-action lawsuit against Musk accused him of manipulating the price of DOGE through media appearances and social media posts.

It added that there was a “meaningful divergence” of opinion regarding where we are in the market cycle, with 45% of institutions believing markets are in the late stages of the bull run, compared to just 27% of non-institutions.

The US dollar’s hegemony is over, as evidenced by China’s recent announcement of export controls on rare earth minerals, a critical component in electronics manufacturing and military defense applications, according to analyst Luke Gromen.
